Dear Mr. Ntume Moyana

**Third Party Transporter Compliance Confirmation :**  
**Holfontein landfill site (H:H)**

We hereby confirm, that Wasteserv Environmental Solutions have submitted the following documentation to comply with the administrative requirements of EnviroServ Waste Management (Pty) Ltd for acceptance of waste to our landfill facility at Holfontein – Class H:H, Permit Number B33/2/321/121/P3:

- Credit application.
- Health and Safety Agreement
- Letter of Good Standing with Federated Employers' Mutual Assurance Company Limited
- Truck/s registration number & proof that is register to transport Dangerous goods
- Driver/s accredited Dangerous Goods training certificate

Wasteserv Environmental Solution is permitted to transport and dispose of hazardous waste streams at our (H:H) Holfontein landfill site after a representative sample analysis has been conducted together with all the required supported documentations and the datasheet has been approved by our EnviroServ TDS Laboratory.

**The following waste streams are excluding:**

1. **Encapsulation** waste and waste which is not accepted within in our permit parameters; e.g. Gas, Explosives, Nuclear.
2. Please be advised that if the waste stream arriving at Holfontein is still **flammable and flash point is high after AB10:1**, Holfontein will have to reject the load/s as they are not allowed to dispose of any load/s that is still flammable after treatment, by order of management and DEAT regulations.
3. If the waste stream arriving at Holfontein has a **pH>12**, Holfontein will have to reject the load/s. They are only allowed to accept waste streams with a pH<12. If the client manages to bring down the pH to an acceptable level, they then can accept the load/s, by order of management and DEAT regulations.

Please do not hesitate in contacting me, should you have any queries or require any additional information.

Regards,

***Vivian Mokgomola***
